

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

The Commonwealth of Massachusetts.

OFFICE OF CONTROLLER OF COUNTY ACCOUNTS,
8 BEACON STREET, BOSTON, Jan. 15, 1912.

To the Honorable Senate and House of Representatives.

In compliance with the provisions of section 1 of chapter 211 of the Acts of 1905, I have the honor to present the twenty-fifth annual report of this office, covering the year ending Dec. 31, 1911.

EXAMINATIONS.

The examinations of the year have been carefully and thoroughly made. Considerable time has been spent in consultation with different officers, with a view of ascertaining whether changes could be made toward simplification of their accounts, better keeping thereof, or the adoption of methods calculated to save county money. Many offices have been examined and the accounts put in order several times during the year. A number of changes in officials have made necessary the balancing of accounts of retiring officers and properly starting new ones.

Although in the main vouchers have been proper in form, we have thought there might be an improvement in many instances. The county commissioners were therefore requested to take the matter in hand, and as a result circulars have been sent by them in their respective counties to all who do business with the county treasurer. This circular is substantially the same in all counties and is as follows:—

All persons rendering bills against the county of _____, to insure prompt payment, must conform to the following rules:—

All bills must be in the hands of the clerk of the county commissioners on the first day of the month.

No bills will be allowed unless fully itemized.

Vouchers must be attached to each bill for all cash payments.

No bills for use of automobiles will be allowed in excess of the usual charge for carriage for like service.

These circulars have brought about a great improvement in vouchers.

Those bonds of county officers which are deposited with the county treasurer and are subject to our examination have been thoroughly overhauled. In many cases new bonds have been required, and a large number have been changed so as to comply with the law. The list of corporate fidelity and surety companies authorized to do business in the Commonwealth is often changed, old companies being dropped and new ones added. Inasmuch as a large number of county officers are bonded in these companies, special attention has been given to their bonds.

The examination of accounts of training schools showed that in one instance the superintendent was in the habit of sending out the bills for pupils' care to cities and towns, receiving payment thereof, banking the same, and accounting to the county treasurer at intervals. This method was at once changed. All bills are now sent out by the treasurer and payments of the same made directly to him.

PROBATION OFFICERS' ACCOUNTS.

Under the provisions of chapter 35 of the Acts of 1911, the supervision of the accounts of probation officers was added to the duties of this office. Proper and uniform books for their accounts were at once prescribed, and officers advised relative to their keeping. A difficulty has arisen, however, in securing uniformity in results by reason of a lack of uniformity in the interpretation of the probation laws by the different courts of the Commonwealth. Cases really probationary in nature are handled by the clerks of courts, and in some courts the probation officer is not permitted to have anything to do with the money in probation cases.

Every effort is being made by this office to get these accounts into as uniform a condition as is possible.

COURT STENOGRAPHERS' BILLS.

The matter of stenographers' bills, particularly those incurred and allowed in murder trials, deserves attention. Recent trials in Middlesex and Essex counties resulted in very large and apparently too liberal allowances.

In one of these counties a stenographer was employed to report a case at so much a folio. The bills, finally approved and allowed by the court, included one for meals and expenses of the stenographer's assistants, for three days, amounting to \$41.25. The four copies of the typewritten report cost the county \$683.25. In another case the following bills were approved and allowed: for typewriting machine, \$92.25; phonograph, \$60; meals for assistants, \$97.80; and for four copies of the report, \$2,313.60.

The legality of these allowances cannot be questioned. The court has the discretionary power to order the payment and the county must pay.

APPOINTMENT OF JUSTICES OF INFERIOR COURTS AS AUDITORS AND MASTERS.

The practice of the Superior Court in appointing justices of inferior courts, auditors and masters, has grown considerably. The Superior Court has the discretionary power to make these appointments, and the appointees have the undoubted ability to properly perform the service required. In one county a careful comparison was made of a number of auditor's bills rendered by justices, with bills submitted by associate justices for services in holding court during the same year. The result of this comparison indicated that while it was possible for the auditor to have rendered the services paid for by order of the court, still it was possible that the county was not getting a square deal in the matter. The bills paid by the county for services of associate justices were very large.

The memorandum incorporated in the justice's certificate allowing one of these auditor's bills is, in part, as follows: "There is, however, serious question whether a county

official receiving compensation considerable in amount, based upon the assumption that a substantial portion of his time will be required by his official duties, should be appointed an auditor, and I append the foregoing query lest the approval of this bill be considered as a precedent."

FEES OF CERTAIN POLICE OFFICERS.

Section 42 of chapter 204 of the Revised Laws provides that no police officer who receives a salary by the day shall be paid for testifying as a witness in a criminal case during the time for which he receives such salary. Section 44 of the same chapter provides that a police officer on duty at night who attends the Superior Court as a witness for the Commonwealth shall be paid the same fees as any other witness. The question has arisen in some inferior courts whether the police officer of a city or town who receives a salary by the week and is assigned to night duty is entitled to witness fees if he attends the inferior court as a witness during the day. Most of the courts refuse to allow such fees. The question is as to the meaning of the words "during the time for which he receives such salary." A former Attorney-General in an opinion rendered several years ago ruled that police officers who are employed and paid for night work, if called into court during the day, should be paid the regular witness fee, inasmuch as testifying in court is not an official service.

FEES FOR ISSUING WARRANTS.

In some counties large sums are paid each year for issuing warrants. If issued by a clerk of a court during office hours no charge can be made. But the office hours of a great many clerks of the smaller courts are so limited that a great part of the business of issuing warrants falls into the hands of those entitled to pay therefor from the county. Although this is all in conformity with law, still some method should be adopted whereby warrants could be issued by clerks or other salaried officers and considerable expense avoided.

These are but a few of the many cases where there is a

wide divergence in matters of court allowances, due wholly to the discretionary power of the courts. I call attention to these specific cases without, however, making recommendations at this time, for I believe that the report of the Commission on the Inferior Courts of Suffolk County, although dealing directly with the courts of but one county, will lead to speedy action toward uniform practice in the other courts of the Commonwealth, superior as well as inferior.

NATURALIZATION FEES.

Under the provisions of the Revised Laws and acts in amendment thereof, naturalization fees were formerly paid to county treasurers and then turned over by them to the treasurers of law libraries for library purposes.

The United States naturalization act of June 29, 1906, permits the clerks of courts doing naturalization to retain one-half of the fees received in any fiscal year up to the sum of \$3,000, paying all additional clerical assistance required from the fees received by them. If the clerk collects fees in excess of \$6,000 in any one year he may be allowed additional compensation for the employment of additional clerical assistance if the business warrants it.

Upon the passage of this act a number of the clerks declined to pay over their naturalization fees to the county, and the matter was called to the attention of the Attorney-General. He ruled that the clerks were not entitled to the fees inasmuch as section 37 of chapter 165 of the Revised Laws provided that the annual salaries of the clerks were in full compensation for all services. The matter then went to the Supreme Court, and the decision there was that the clerks were entitled to their fees.

It is now incumbent upon the county commissioners to ascertain whether any part of the clerical assistance employed in the offices of clerks of courts is properly "extra clerical assistance" made necessary by naturalization work, and whether requests for increases of salaries of present employees or requests for more assistance are due to the naturalization work done in these offices.

LAW LIBRARIES.

The laws relating to law libraries in counties should be revised.

The total appraised value of the books in these libraries is about \$500,000. The appropriations for the support of these libraries are made in many ways. Some are charged to general taxation, items therefor being included in the county commissioners' annual estimate; some are supported by special legislation, there having been many acts passed in different years; some receive the \$2,000 or a less amount, under the provisions of the general law, section 4, of chapter 38, of the Revised Laws; others take whatever they are entitled to under this law, and also such further sums as the county commissioners see fit to allow them under a subsequent clause of this same section; in some counties no estimate is made and the expenses are paid from unexpended balances; and until recently naturalization fees went to the county law libraries.

The management of the libraries is in the hands of committees of law library associations, committees of bar associations and in some cases has been intrusted to individuals connected with these associations. Salaries are paid to treasurers, custodians, librarians and clerks, running from a few dollars into the thousands.

The returns made by several of the association treasurers to the commissioners are inadequate, the treasurers contending that the law neither requires an itemization of their accounts nor provides for the examination demanded by the controller.

The law should be amended so that all law libraries must be incorporated and appropriations made in the same way. Each library should have its separate appropriation in the commissioners' estimate, charged to general taxation. Clerks of courts fees should go into the general income of the county. The treasurer's account should be fully itemized and subject to examination by this office, without any question of the meaning of the law. Comparisons of the cost of maintenance

could then be made and a saving of the counties' money would undoubtedly follow.

I therefore recommend the passage of the following bill:—

AN ACT RELATIVE TO PAYMENTS TO LAW LIBRARY ASSOCIATIONS.

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

SECTION 1. Section four of chapter thirty-eight of the Revised Laws is hereby amended by striking out said section and substituting the following:—*Section 4.* For the purpose of maintaining law libraries controlled by legally established corporations and associations designated in sections one and two of this chapter, and to none other, county treasurers shall pay annually to such corporations and associations such amounts as the county commissioners shall include in their annual estimate of receipts and expenditures, granted and appropriated by the legislature in the county tax, a separate amount being fixed for each library in case there is more than one in a county. All sums so paid shall be applied to maintain and enlarge such libraries for the use of courts and of citizens. The treasurer of the law library association, before receiving any money from the county treasurer, shall give bond with sureties to the satisfaction of the county commissioners for the faithful application of such money and that he will make a return annually to the county treasurer, under oath, of the manner in which it has been expended, fully itemizing all receipts and expenditures, accompanying the same with proper vouchers.

SECTION 2. All acts and parts of acts inconsistent herewith are hereby repealed.

SECTION 3. This act shall take effect upon its passage.

MASTERS' AND KEEPERS' ALLOWANCE.

Section 8 of chapter 456 of the Acts of 1911 requires the superintendent, master or keeper of any reformatory or penal institution to pay over to the probation officer, under certain conditions and at the end of each week, a sum equal to 50 cents for each day's hard labor of certain prisoners in their institutions. In the case of masters and keepers of jails and houses of correction the act provides no funds from which to make these payments. Section 35 of chapter 6 of the Revised Laws provides that officers who are authorized

to expend money in behalf of the Commonwealth may, upon requisition, have advanced them, by the Commonwealth, money to meet such expenditures. But there is no provision of law authorizing advances to masters and keepers in order that they may have funds from which to pay the expenses they have to meet, because of this new law or that providing for advances to discharged prisoners or other incidental expenditures. The amount of money these officers have to advance is going to be very materially increased by this act. Under the law as it is now they must pay from their own pockets and later ask the county to reimburse them. The county should advance them funds, under restrictions similar to those imposed when the Commonwealth makes advances.

I therefore recommend the passage of the following bill:—

AN ACT PROVIDING FOR ADVANCES FROM THE COUNTY TREASURY TO MASTERS AND KEEPERS OF JAILS AND HOUSES OF CORRECTION.

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

SECTION 1. Masters and keepers of jails and houses of correction who are authorized or directed to expend money in behalf of the county may have money advanced to them from the county treasury in such amounts as the county commissioners may approve not exceeding the sum of one hundred and fifty dollars at any one time.

SECTION 2. Such officers shall certify that the amount is needed for immediate use, and, as specifically as may be, the purposes for which the expenditure is required. The certificate shall bear the approval of the board of county commissioners and when filed with the county treasurer payment shall be made by him to such officer.

SECTION 3. Such officers shall, within thirty days after the receipt of an advance, file with the county treasurer a detailed statement of the amounts expended subsequent to the preceding accounting, approved by the board of county commissioners, and vouchers therefor.

SECTION 4. This act shall take effect upon its passage.

SALARIES OF DEPUTIES.

With the exception of the salary of the third deputy in this office there has been no change in salaries since their establishment. The third deputy's salary was raised from \$1,000 to \$1,200 eleven years ago. The first deputy's salary has remained at \$1,800 for sixteen years and the second deputy's at \$1,500 for twenty-one years. During this time the work has more than doubled. The first and second deputies have been performing their duties for many years and they, together with the third deputy, are extremely efficient and valuable men. Their salaries average \$500 less than those of others in the employ of the Commonwealth, doing work of a somewhat similar nature, but not more important, and requiring not nearly the same high standard. There is too great a difference in the salaries of the deputies. The work is the same for each of them, and the only difference between men of about the same aptitude is that which experience makes. Their salaries should all be raised so as to more nearly conform with the salaries paid others whose duties are of the same general nature.

I therefore recommend the passage of the accompanying bill:—

AN ACT RELATIVE TO THE SALARIES OF THE DEPUTY CONTROLLERS
OF COUNTY ACCOUNTS.

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

SECTION 1. Section forty-six of chapter twenty-one of the Revised Laws is hereby amended by striking out the words "eighteen hundred dollars" in the seventh line thereof and substituting therefor the words:—two thousand dollars,—and by striking out the words "fifteen hundred dollars" in the seventh and eighth lines thereof and substituting therefor the words:—eighteen hundred dollars,—and by striking out the words "twelve hundred dollars" in the eighth line thereof and substituting therefor the words:—sixteen hundred dollars,—so as to read as follows:—*Section 46.* The controller may appoint, with the approval of the governor and council, and subject to removal with their consent, three deputy

controllers. If the controller is disabled from performing his official duties, or if the office of controller is vacant, the first deputy shall perform the duties thereof. The annual salary of the controller shall be twenty-five hundred dollars; of the first deputy, two thousand dollars, of the second deputy, eighteen hundred dollars and of the third deputy, sixteen hundred dollars, payable by the commonwealth. The controller shall be allowed the actual expenses of himself and his deputies incurred in traveling in the performance of official duties.

SECTION 2. This act shall take effect upon its passage.

NATURALIZATION FEES.

Inasmuch as naturalization fees are now divided between clerks of courts and the United States, under the provisions of the United States naturalization act of June 29, 1906, the counties have no further claim on them. And although it may be that the second clause of section 18 of chapter 166 of the Revised Laws, making these fees payable by clerks of courts to county treasurers and by them to the treasurers of county law libraries, is, by implication, repealed by the United States law, or nullified by the decision of the Supreme Court of the Commonwealth, in the case of *Hampden County v. Morris*, I recommend the passage of the accompanying bill:—

AN ACT RELATIVE TO NATURALIZATION FEES.

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

SECTION 1. Section eighteen of chapter one hundred and sixty-six of the Revised Laws is hereby amended by striking therefrom the words beginning "all fees" in the sixth line thereof and ending with the words "by law" in the eleventh line thereof, so as to read as follows:—*Section 18.* The fees of clerks of all courts under the provisions of the four preceding sections shall be as follows; for receiving the primary declaration or application for the naturalization of an alien, one dollar; for the final declaration or application for the naturalization of an alien, two dollars; for making out the papers of either of said declarations, one dollar. No primary or final certificate shall issue until the fees provided for in this section are first paid.

SECTION 2. This act shall take effect upon its passage.

OPINIONS OF THE ATTORNEY-GENERAL.

The question having arisen in several cases how far justices of inferior courts are authorized by law to go in the matter of purchases of various articles of furniture for their offices, this office requested the Attorney-General to furnish an opinion relative to section 40 of chapter 160 of the Revised Laws. For the information of county officers I quote from his opinion, as follows:—

By a communication dated March 18th you inquire whether the provisions of Revised Laws, chapter 160, section 40, authorize the purchase by a justice of a municipal, district or police court of office furnishings, such as a typewriter, a rotary neostyle and a cabinet. . . . I am of opinion that this section does not authorize the purchase of furnishings for a court room. Under the provisions of Revised Laws, chapter 20, section 6, it is the duty of the county to "provide suitable accommodations for district and police courts in the cities and towns in which they are required to be held," and to "provide for the heating and care thereof and do all other things incidental thereto." The furnishings of a court room, therefore, should be provided directly by the county, under this section, and not by the justices and clerks of police, district or municipal courts under section 40.

Early in the year the question arose as to the interpretation of section 18 of chapter 20 of the Revised Laws, relative to the copy of the records of the county commissioners, required to be filed by their clerk with this office. The opinion of the Attorney-General upon this question follows:—

Section 18 of chapter 20 of the Revised Laws provides that county commissioners "shall keep a full and complete record of the proceedings at all their meetings and, if their vote and decision is not unanimous, the record shall show how each commissioner voted. A copy of said record, attested by their clerk, shall annually, on or before the fifteenth day of January, be transmitted to the controller of county accounts." . . . I have no hesitation in advising you that in my opinion section 18 requires that a copy of the full and complete record of the county commissioners, attested by their clerk, should annually, on or before the fifteenth day of January,

be transmitted to the controller of county accounts, and thereafter by him submitted to the General Court. These provisions are not complied with by the transmission of so much of the records of the county commissioners as shows how each commissioner voted in cases where their vote or decision was not unanimous.

Chapter 162 of the Acts of 1911 made changes in the law relative to county commissioners' expense allowances. The difference of opinion relative to the proper interpretation of the act was such that the Attorney-General's decision was required and is, in part, as follows:—

Your particular inquiry is with reference to what shall be included in the allowance for meals and "other necessary expenses" in addition to transportation. The matter is not entirely free from doubt by reason of the fact that there does not seem to be any express provision requiring the county commissioners to maintain an office or to hold their meetings at any particular place or office. I am informed, also, that the practice in the different counties varies as to when and where meetings are held. On the whole, however, I am of the opinion that the act should be construed so that when a county commissioner is entitled to transportation he should also be allowed for his meals and incidentals. Where he is not entitled to charge for transportation he should not be allowed for his meals.

The meaning of the word "costs" in chapter 250 of the Acts of 1911 is not plain and has occasioned trouble in the accounts of clerks of inferior courts. I quote a part of the Attorney-General's opinion as to the meaning of this word:—

It is apparent that the word "fee" in the fifteenth line is intended for "fine." The obvious purpose of the amendment was to secure to the jurisdiction in which the case was first prosecuted a proper share of the money received from the fine eventually imposed in the Superior Court. In my opinion the word "costs," as used in the statute of this year, should be taken in the same sense as the word "costs" is used in Ct. 1890, chapter 440, section 4, and is equivalent to the fees and expenses disbursed in the lower court, which the clerk of that court is required to transmit upon appeal to the Superior Court.

In 1904 several acts were passed classifying and establishing salaries for many county officers. The intention of those who drew the acts was undoubtedly to make them automatic. But coming as they did from different sources, this intention was not clearly carried out in the wording of the acts. An interpretation of chapter 451 of the Acts of 1904 by the Attorney-General was obtained, and in consequence thereof the legislation contained in chapter 299 of the Acts of 1911 was passed.

SALARIES OF ASSISTANT RECORDERS OF THE LAND COURT.

The legislation establishing the land court provided for the fixing of salaries of assistant recorders by the Governor and Council. Until last year less than half the assistant recorders received salaries and a number of them were doing much less business than some of the others who received no salaries.

In May 1911, the Governor and Council established a classification, and now each assistant recorder receives a salary, based upon the amount of business done in his office.

REPORTS TO THE ATTORNEY-GENERAL.

In compliance with the provisions of section 47 of chapter 21 of the Revised Laws the following matters have been reported to the Attorney-General:—

Sheriff of Suffolk County.—A recent examination of papers filed in the office of the clerk of the superior criminal court of Suffolk County shows the following facts: on Dec. 28, 1910, returns were made of 21 executions on defaulted recognizances amounting to \$3,326.63. The deputy sheriff's returns on these executions show that they were collected and paid to the sheriff on different dates between Dec. 4, 1908, and Nov. 7, 1910. For instance, the execution collected Dec. 4, 1908, was No. 4049, and amounted to \$318.51. One of the deputy sheriffs certified on this execution that he collected and paid the sheriff this amount Dec. 4, 1908; the sheriff under date of Dec. 28, 1910, certifies that he has received this same amount on the execution. In the same

way another was collected Dec. 31, 1908, 7 in 1909 and 12 in 1910. We are informed by the clerk of the court mentioned above that this procedure is in the ordinary course of business, and that it is the custom for the deputy sheriff to hold these amounts paid him until a considerable sum has been collected before paying over to the sheriff, who then makes his return to the court and receives a certificate. The sheriff informs us that the returns on the executions are not correct in that he did not receive any of this money until Dec. 28, 1910, — that it was held by the deputy sheriff until that date.

Since this matter arose, payments over have been very promptly made.

Norfolk and Plymouth County Treasurers. — Under the provisions of chapter 482 of the Acts of 1909, these two counties were authorized to expend \$20,000 in repairing and improving Straits Pond bridge. An amount has been expended exceeding the appropriation by \$827.96. The reason given for this is that during the work a storm arose and caused considerable damage. The work was being done by the day.

Norfolk County Treasurer. — The Northwestern Consolidated Milling Company was paid for two bills for flour, \$600 each, dated Oct. 24, 1910, the flour being delivered in one lot, a car load. The purchase was made by the sheriff for use at the jail. This is apparently a violation of chapter 20, section 27, of the Revised Laws. The claim is made that the county saved money by the transaction.

Middlesex and Essex County Treasurers. — Under the provisions of section 3 of chapter 21 of the Revised Laws, Middlesex County was authorized to expend annually for clerical assistance in the treasurer's office the sum of \$800, Essex County, \$600. Chapter 322 of the Acts of 1905 authorized Middlesex County to expend \$1,200 for this purpose, Essex County, \$1,000. The prior act was not repealed, in words, by the subsequent act, and the two counties regulated their expenses with the supposition that the total provided for by the two acts could be expended. The work done

in these two offices was necessary, and the business of the counties could not have been properly performed by the expenditure allowed by the second act alone. During the years 1905 to 1910, inclusive, Middlesex County has paid out \$626.14 in excess of the amount allowed by the second act; Essex County, \$1,580.28.

Worcester County Treasurer. — The law permits counties to pay for law books for the use of courts. The present collection of books in the Fitchburg Court House is, in reality, a law library. The payments made by the county of Worcester for its support, from its miscellaneous and contingent fund, do not seem proper and have been stopped. From Jan. 1, 1911, to Aug. 1, 1911, the county has expended \$360.43 in this way.

Berkshire County Treasurer. — Chapter 308 of the Acts of 1908 authorized the expenditure of \$2,000 for making certain copies of records of the registry of deeds. Chapter 415 of the Acts of 1910 authorized an additional expenditure of \$1,500 for the same purpose, making a total of \$3,500 authorized.

The county treasurer has expended for services in doing this work the sum of \$3,946.40, and for materials the further sum of \$153.50, properly charged to this account. Thus the total expenditure has exceeded the appropriations by \$599.90.

TABULATIONS.

The material portions of the annual returns made to this office, under the provisions of section 49 of chapter 21 of the Revised Laws, compiled in tabular form, follow.

Respectfully submitted,

FRANK L. DEAN,
Controller.

TABLE No. 1. — Returns of County Treasurers for the Year ending Dec. 31, 1911.
RECEIPTS.

TREASURER.	County.	County Tax.	Loans.	Interest.	FINES, COSTS AND FEES.			Clerks of Courts Fees.	Registers of Deeds Fees.
					Sheriff, Supreme and Superior Courts.	Inferior Courts and Trial Justices.	Jailers and Masters of Houses of Correction.
